JOSH RENEMA
Full-Stack Developer

@ josh.renema@protonmail.com   🌐 Portfolio   Github   in Linkedin   📍 Vancouver, BC

SUMMARY

A full-stack developer with a passion for both creating responsive applications as well as constructing efficient backend APIs. Experience in both development & design. A natural leader who can think critically, always brings a positive attitude, and is eager to constantly learn and grow as a developer.

EXPERIENCE

Full-stack Developer
Techies of Tommorow
🕐 Mar 2021 - Mar 2022

• Built out a fully functioning CRM using React, Nextjs, Node.js, PostgreSQL, and AWS.
• Worked on client projects for BCIT, Smart City Media, and Burnaby Board of Trade
• Used React to build out components and pages.
• Collaborated with teammates delegating and assisting each other with tasks

PROJECTS

Smart City Media

• Vancouver based company specializing in drone based landscape stock photography & real estate promo videos

• Performed continuous integration and remote collaboration with Git features such as branching, merging, and pull requests

• Built out a gallery feature, which delivers photos to clients for viewing/downloading using AWS S3

• Worked with software development lifecycle processes and Agile software development methodologies

• Used test automation to perfect the user experience and to improve product accessibility with Jest

Customer Relationship Manager

• Built with **React, Nodejs, Nextjs, Express, AWS,** and **PostgreSQL**

• A fully functioning A fully functioning CRM for BCIT to manage their contacts, send out emails/texts, and manage tasks

• As the lead backend developer, I built out the database structure, modals, and controllers, as well as used **AWS SNS** and **SES** to build out endpoints for email/texting contacts.

• Built out scalable frontend components/pages.

Petsave

• Student project made w/ **React, Nodejs, mySQL, AWS S3**

• A social media web application for animal rescues and rehabilitation centers, built by a team of 4 BCIT students.

• Developed Front and Backend using Git to collaborate

• Designed User Interface in Figma
